ChondroFiller treatment in the hospital of Prof. Jörg Jerosch

The Head of Department Prof. Jörg Jerosch and his team are performing more than 3,000 surgeries per year. Based on top notch expertise and combined with the most innovative and current surgical technologies, Johanna Etienne Hospital is representing a wide range and high level of surgical and therapeutic offer.

Prof. Jörg Jerosch is one of the Germany’s top 10 orthopaedic surgeons and key opinion leaders, a honorary and advisory board member of several national and international associations.

Only most innovative, high quality and bone saving products of the world’s best orthopaedic implant producers are used in the orthopaedic and trauma department of Johanna Etienne Hospital. The hospital is located in Neuss, a cosy and nice historical and cultural city only 15 minutes from Dusseldorf International Airport and half an hour from Cologne with all it’s beauty, architecture, German hospitality and shopping possibilities.
